- Made changes to existing logic in order to add new feature to existing functionalities.
- Built REST APIs to cater the frontend part of the project.
- Unit testing for Repositories, Services and Controllers that improved code coverage from 71% to 83%.
- Made changes in the UI part of the application in order to improve responsiveness towards small devices like tabs and mobile phones.
- Design and Development of UI components.
- Resolved malfunctions with system and programs through troubleshooting.

Personal Projects

Movies Application   *https://abhishekd.netlify.app/*

- Technologies Used: React, JavaScript, HTML, Tailwind CSS.
- Designed and developed web application by fetching JSON data from TMDB API
- Functionalities added: Show movies, add movies to watchlist, delete movies from watchlist, search movies by Genre and Movie Name.
- GitHub Repository: https://github.com/Abhisd/Movies-App

Weather Forecast Web Application

- Technologies Used: JavaScript, HTML, CSS.
- Designed and developed a single page application which gets data from api.weatherapi.com
- Functionalities added: Displaying the weather forecast for the city searched.
- GitHub Repository: https://github.com/Abhisd/WeatherApp

Personal Portfolio   *https://abhisd.github.io/Portfolio-Design/*

- Technologies Used: HTML, CSS.
- Designed and developed static web page displaying Professional details.
- GitHub Repository: https://github.com/Abhisd/Portfolio-Design

Education

Scaler Academy
DSA and Full Stack Development   June 2022 – Pursuing

Sinhgad Institute of Technology and Science, Pune – University lof Pune
Bachelor of Engineering: Computer Science.   Aug 2016 – Oct 2020

Accomplishments

Solved 300+ DSA problems on LeetCode: https://leetcode.com/AbhishekDawange/
